ABOUT ME

I am an individual who has a great interest in the IT or Technology field. While studying at SMK Plus Pelita Nusantara with a concentration majoring in Software Engineering, I regularly improved my skills in Website Development, especially in the Frontend section of the website. Apart from that, recently I have also tried to become a UI/UX Designer who designs or creates web designs that will later become can provide great benefits in the world of work. During school I also participated in the Devaccto organization which is a school organization that focuses on the major I am studying.
